

A thermal image of a city skyline, likely Regensburg, Germany, reflected in the Danube River. The image is color-coded, with warmer areas (red/orange) indicating higher temperatures and cooler areas (blue/purple) indicating lower temperatures. The city's architecture, including domes and spires, is clearly visible.

AITA 2027

ADVANCED INFRARED
TECHNOLOGY
& APPLICATIONS

Thermo27

Discover. Connect. Advance.

Be part of the dialogue
between science and
industry in infrared
thermography.

Save the date:

6–9 September 2027
Dresden, Germany

Highlights

- Infrared research meets industrial application
- International exchange and networking
- Technical exhibition and industry showcase
- 3 days of scientific and social programme
